BLESSING OR MISFORTUNE – YOU CAN CHOOSE

God (the Highest Intelligence) loves you & will help you.

God is a doctor, and not an executioner.

"First of all, look for the God's Kingdom."

"The God's Kingdom is inside you." (in your soul)

God's Kingdom is a feeling of peace & love.

By sinning, you're removing paradise (God's Kingdom) &
God's blessings from your soul & life.
"If you don't want to grieve, then don't sin."

This book is based on Christian beliefs, the lectures of a famous English-speaking Bible teacher Derek Prince https://en.wikipedia.org/wiki/Derek_Prince (the links to some of his lectures are in "Resources" chapter), the lectures of a famous Russian Orthodox theologian, professor and lecturer from Moscow Orthodox Theological Academy Alexey Osipov Alexei Osipov - Wikipedia , the lectures of well-known Russian Christian priests (the link to a playlist is in the "Resources" chapter), and my own experience and understanding as a Christian and a human being.

1. WHAT IS THE PURPOSE OF OUR LIVES?

Here is the answer: We are here to become better people in our thoughts, feelings, and actions. We were born to strive for perfection. This is the purpose of our lives.

The higher intelligence (that we are not able to perceive and understand, and that most people call "God") created this world, so we could achieve this goal and make

this world a better place. Just by working on yourself and becoming a better person, you'll not only improve your life, you'll also inevitably improve the lives of others.

But what perfection should we strive for? What is good and what is bad? If you keep reading, you'll find out.

2. WHAT'S GOING ON

The world around us is not the only world that exists. Physicists discovered at least 4 more realms of life (another worlds) different from the one we are in. We can't see those other realms. Let's call all the realms "The System."

So, the higher intelligence, or God, created The System with all its realms.

God's goal was to create The System, where all creatures and elements would be constantly developing into their most perfect form: physically, mentally, and spiritually. To achieve this, God also created rules in different areas of The System.

For example: If you eat something bad, you get sick. It's the rule. But that's only in the physical realm. Keep in mind that there're at least 5 realms of life where we exist. Let's talk about another realm of life. Here, the important thing to understand is that we are not just our bodies. We have souls that live inside us. After our bodies die, our souls go to different places in those other realms of The System. The places our souls go to will depend on the souls' "condition" at the moment of death, and on lives that people had lived. In those other realms, the souls keep existing forever.

In this book, you'll find out about the spiritual rules that influence how we feel spiritually, emotionally, and physically. Basically, if you want to have a good, interesting, and fulfilling life, you must follow the God's rules. Otherwise, you'll suffer, and you can also bring misfortune and suffering to others.

If someone lives by the God's rules, then during this person's life, he (and possibly his offsprings too) will be rewarded for this, and after death, the soul of this person would go to wonderful places, where it will enjoy "living" for eternity.

But if someone doesn't follow the rules, constantly breaks them, this person (and possibly his offsprings too) will get punished by misfortunes and sufferings already during his life. And after death, his soul will go to places, where it will be punished again for all bad things, that this person had done, and where it will suffer for eternity. (UNLESS GOD FORGIVES THIS PERSON.)

3. WHO IS WHO and HOW IT WORKS

So, millions of years ago, God created The System – the world with its different realms and elements. The highest God's creation were humans, who have the intelligence similar to the intelligence of God, and their own.

God was not doing all that alone. He had (and still has) millions of invisible for us angels that helped him do his work. Different angels are responsible for different areas of life in this world. We can't see angels because they live in different realms of The System. Angels, that serve God, can "fly."

There were different groups of angels. Some angels were very close to God and had millions of other angels under their command. Let's call them "top angels."

At some point, it happened so that one of the top angels thought he was as smart and powerful as God himself. God didn't like it and expelled him from his God's Kingdom. The name of this angel was Satan (or Devil).

Satan got so angry that he promised to destroy God's wonderful System and make creatures of this System suffer and unhappy. Also, Satan didn't leave God's Kingdom alone. He took with him millions of angels that were under his control before he got expelled. (That's 1/3 of all angels.)

He promised (lied) to them that someday he'd become more powerful than God, but it could only happen if they all constantly fight against God and his rules, for every soul of every human.

That's why in this world, there are two forces: good, that comes from God, and bad or evil, that comes from Satan or Devil (both names refer to the same being). And there's a constant battle between them for our minds, hearts, actions, and eventually – our souls and this world.

Sometimes, God and Satan are depicted as persons. But God is not a person.
God is the higher intelligence that created this world with many realms (The System).
And everything we see (and don't see), including us and Satan, are inside this System.

The eternal battle of God (left) and Satan (right) (created by AI & the author)

The goal of God (higher intelligence) is the constant improvement of this world, so all its elements (including us) develop to their best & full potential. God does everything for all elements to function the way that benefits this world and themselves.

If someone or something malfunctions (doesn't work for improving themselves and The System as a whole), God tries to correct (repair) it by its own means or the means of The System that sometimes seem too harsh or even cruel to us. God does it for only one purpose: to bring a person or people closer to Himself.

We, humans, are God's highest and most complex creations not only in our bodies, but also in our minds. It's because we have the intellect of our own and **can make decisions that can go against God's rules.** This is the way we were created by God who wanted us to exercise our minds and souls in making choices, so we are on God's side by our own will (Only this way we can benefit God's Kingdom – our System).

And if someone doesn't want to live by God's rules and be with God, they're free to do so. But since there are just two forces in The System (good and evil), whoever is not with God, will be taken by Satan (**You can't be neutral**). And the consequences of following Satan's path could be gruesome and 100% inevitable.

God brought us his rules and other teachings through his beloved son Jesus Christ (**We are all beloved God's children**), and that rules are available for almost anyone. You can find them in the Bible, many other books, here and on many websites.

So, you have a choice, and it's up to you, which way to go.

Just remember, there will always be consequences, sooner or later.

If someone doesn't believe in all this, it doesn't matter. Because it works in everyone's life anyway.

4. THE GOAL OF SATAN

Satan is a forever deceiver, enticer, and a murderer.

He loves lying, stealing, killing, and destroying.

Satan hates God, who is his eternal enemy. Satan gets under his control peoples' minds, hearts, bodies, and souls, and eventually makes the lives of his followers very painful and hard. After Satan followers die, he takes their souls directly to his kingdom, that's called Hell, to keep torturing them there for eternity. He enjoys it, and this way he fights God.

Satan's goal is to prevent this world and its elements (including people) to develop their full & best potential, to make people suffer, and eventually **kill them or just make them useless for** our world's successful development & for God, before they find out what's going on, **before they get to know God's rules (the right ways of living), before they start serving God and benefitting this world, and before they can be saved by God.**

The main goal of Satan is to stop people from knowing God and his rules. Or if people already know about them, Satan will try to prevent people from living by God's rules and serving God and this world effectively.

The highest joy for Satan is to bring a person to death: to kill him.

These are the things that bring the highest joy to Satan:

1. When a person kills himself (fast or slow (with the help of smoking, alcohol, drugs) – commits suicide.
2. When people kill each other.
3. When mothers kill their unborn children.

How does Satan achieve his goals?

By deceiving and enticing, he makes the most harmful things and actions look desirable and attractive to make people act the ways that harm God, themselves and this world.

These actions are called "*sins," and God listed them for us in the Bible.

You can find the list of sins in this book and in many other books & websites.

***a sin is translated from Greek as a mistake, unlawful act, missing a target.**

By committing sins, you are wounding your soul and connecting with demons-tormentors + "feeding" them (making them happy & strong inside your body).

Don't sin, and God will help you achieve what's best for you and this world. Sin, and Satan will happily take care of you while you're alive and in this world, and after your body dies.

Satan is a deceiver, enticer and a murderer.

This is the essence of his character.

5. WHO ARE DEMONS?

Of course, Satan is not alone. He has an uncountable army of invisible servants called "demons." **Demons are persons without bodies.** They are former angels that used to be under Satan's command, when Satan served God. Although demons are former angels, they can't "fly", they can only walk.

Nobody knows where demons originated from, but my guess is that they're souls of especially sinful people, who hated God, who refused to change and who willfully decided to serve Satan during their lives.

To successfully serve Satan, demons need bodies, so they could physically act against God and this world. That's why they're craving to get inside us and manipulate our thoughts, feelings, and actions.

People's bodies are the most desired "house" for demons. It's because by getting inside us, they could make us do what they want to better serve their master, Satan, and help him damage The System and upset God. But sometimes, they could get into animals' bodies as well. They can also get attached to objects and then get inside people that take those objects.

Remember, you can't be neutral. If you don't believe in God and don't follow God's rules, you'll inevitably get into Satan's hands. And demons help Satan do exactly this

How do demons get inside us?

If you don't follow God's rules or do against them (acting against God's rules is called "committing sins or sinning"), you "open a door" for demons to enter your body and mind.

Their goal is the same as the one of their master (Satan or Devil): to prevent this world and its elements (including us) to develop to their full & best potential, to upset God, to make people and other live creatures suffer and eventually **kill them or just make them useless before they find out what's going on, before they get to know about God and his rules (the right ways of living), and before they start serving God and benefitting this wonderful world.**

If someone already knows about God, they'll try to prevent this person from serving God. If someone is already serving God, they'll try to stop this person from serving God effectively.

Their goal is to make you harmful or at least useless for God and this world, get your body & mind under their control, and manipulate you, so you can benefit Satan instead of God. And after you die, your soul will go under Satan's control, will suffer, and will stay in his kingdom that's called Hell.

Demons are everywhere and can go from person to person, from animal to person, or from object to person. So, it's important to be careful with your surroundings and get to know people before following their advice, letting them into your life, getting information about places before attending them, looking, watching, reading, listening to someone or something, or getting things for your home or others.

There are different types of demons: demons of alcoholism, smoking, drug usage, killing, homosexuality and other sexual perversions, lying; demons of pride, fame, power, money, anger, laziness, greed, gluttony, bragging, uncontrollable and never-ending talking, time wasting, impulsiveness, rudeness, negativity, sadness, depression, desperation, suicide, etc.

Almost everyone has some demons occupying **some areas** of his/her life.

Ever heard voices or whispers in your head, or wondered what got over you when you said or did something? **It's their work. But it's your fault because by sinning you let them get to you & inside of you.**

How do demons influence people?

They put different very harmful thoughts in people's minds and harmful feelings in their hearts. They entice people to listen to those thoughts and feelings, and act accordingly – in a way that harms themselves, others and this world.

Demons inside people "see" each other, and it could be that some evil and harmful people will be send your way to steer you away from the God's path.

Be aware of those people, their suggestions and advice. Don't listen to them.

Also, keep in mind that demons operate in gangs. If one got inside you, he'll be looking for ways to "open the door for his friends."

Don't worry, it's possible to get rid of them. Keep reading and you'll find out how.

6. ABOUT YOUR THOUGHTS, WORDS, INTENSIONS, AND FEELINGS

Remember that your thoughts, words, intentions, emotions, and feelings are not just contained in your head and body. Whatever you think, feel, and say (silently or out loud) goes right out into The System, and is clearly felt, heard or visible to God with his servants – angels, and Satan with his servants - demons.

You are always an open "book" for God, Satan, and their servants.

You are constantly being watched, listened to, attuned to, and reacted to + depending on your thoughts, feelings, intentions, and actions, you're handled by God or Satan.

SO, DECIDE WHICH SIDE YOU ARE ON.

Let's go over the God's rules first and have a look at the right ways of living that benefit yourself, your surroundings, and this world.

7. THE GOD'S RULES or THE NORMS OF A HUMAN'S CHARACTER & BEHAVIOR

God loves us & wants us to be the best people we could be. To help us achieve this goal, He created the rules or norms of a human's character and behavior.

These are the basic rules that God created for us:

1. You shall not have other gods or make idols. You must **LOVE & SERVE** only one God.

Also remember that you shall not use the word "God" as an ordinary word or in trivial sayings, exclamations, etc. It's disrespectful to God. Don't make Him angry...

2. Love your neighbor (another human being) as you love yourself. He/She is a God's child too. The same as you, but with his/her own flaws.

3. Honor your parents. (It's because of them you're in this world, and you have their genes inside. They are forever in you and you're forever in them. Try to understand them, instead of judging and coming up with some conclusions. They are just people – God's children, just like you and all others. They are the way they are because of your grandparents and grand grandparents, the time, culture, genetics, politics, education, etc. If you don't like your parents, help them change themselves by talking about what you don't like in them. Show them this book, read together, and talk about it.)

4. You shall not say any false words. (Don't lie.)

5. You shall not murder. (Killing unborn children (abortion) is the worst murder, that even animals don't do. And fathers are equally responsible. Killing yourself is a murder too.)

6. You shall not desire anything that belongs to another person.

7. You shall not steal.

8. You shall not hate anyone or hold grudges. (Forgive others if they ask for forgiveness. If you don't forgive others, God won't forgive your mistakes either.)

9. You shall not be proud, angry, cruel, greedy, lazy, depressed, or desperate.

10. You shall not have any addictions (Addictions are things that you think you can't live without, or activities that you think you can't stop doing (although you understand that they're harmful), and that occupy your mind and control how you feel and what you do. All of them come from Satan and bring you under his control and into his kingdom.)

11. You shall not commit adultery (cheating on your spouse).

12. Devote a day a week or some time every day to examine your thoughts, feelings, intentions, and actions, and ask God for forgiveness. (Did you make any mistakes? Why? What was right and what was wrong?)

It will be ideal if you master constantly monitoring your thoughts, feelings, and actions, and ask God for forgiveness for your mistakes right away.

So, remember, if you follow God's rules, you have a chance to live an interesting, fulfilling life, full of many God's blessings and awesome, often unexpected presents, while you're alive and in this world. And after your body dies, your soul will have a chance to continue its existence in the Kingdom of God and keep benefitting The System and this world.

How to determine if what you think, feel, or do is in accordance with God's rules?

1. Go through all God's rules.

2. Listen to your *conscience. – Послушайте свою *совесть.

Conscience* is a person's moral sense of right and wrong, viewed as acting as a guide to one's behavior. **Conscience is called a God's voice in your heart.

Ever had a feeling that your conscience is bothering you? Rejoice! And listen to it.

3. Ask God to correct you if you do wrong.

Keep in mind that there are no such things as unimportant thoughts, feelings, or actions. Everything matters.
→ If someone is wrong in small things, he will be wrong in big things as well.

It's not easy to follow God's rules. But why should that be easy? It's the war going on, and the main prize is our world. If Satan wins, he'll destroy it.

8. THE SINS, OR WELCOME TO THE KINDOM OF SATAN!

If you don't live by the God's rules, you inevitably get under control of God's restless enemy – Satan, and you'll get misfortunes, sufferings and even *curses that will keep stopping you from serving God and the world effectively or at all.

**a curse* is a strong punishment from God in a form of suffering and misfortune, for breaking his rules.

Remember that **Satan's goal** is to prevent this world and its elements (including you) to develop to their full & best potential, to make people and other live creatures suffer and eventually **kill them (or make them useless for God & this world) before they get to know God, his rules (the right ways of living), and before they start serving and benefitting God and this world.**

Satan's goal is to stop you from getting to know God and serving him and the world he created effectively; get you and your soul under his control, so that you will be damaging this world or at least, make you useless. And after your body dies, your soul will stay & suffer in Satan's kingdom that's called Hell for eternity.

The actions that go against God's rules are called "sins."

So, Satan and his servants – demons do everything to make you commit these sins.

By sinning, you're opening a door for demons to enter inside your body & mind, so they can manipulate you and make you do what they want, so you can serve Satan, and not God, suffer, die before you can be saved by God, and go directly to hell to be tortured and suffer there for eternity.

Also, by sinning, you're removing paradise & God's blessings from your soul & life.

***** Remember, God's Kingdom (that is peace & love) is inside you.**

THE LIST OF SINS

These are the main sins (the deadly sins are listed separately):

1. Following Satan / false gods (This is the worst sin and the curse (God's punishment in a form of sufferings and misfortunes) for it is passed up to the 4th generation.)

2. Being a part of or in contact with the occult, witchcraft, astrology, fortunetelling, etc., including having any objects that represent them. (Remember that demons can attach themselves to objects and get to you this way.)

3. Disrespecting your parents and not having a good or decent relationship with them. (They are a part of you, and you are a part of them. Forever.)
4. Murdering your unborn children (abortions). (Fathers are also guilty of this.)
5. Not helping weak people or people in need
6. Lying / Perjury / Slander / False witness / Dishonesty of any form
7. Stealing
8. Being proud (Pride is said to be the mother of all sins.)
9. Boasting / Vain / Glory
10. Anger / Wrath
11. All addictions (drugs, alcohol, food (gluttony is a sin), smoking, sex, watching / listening / doing something that's inappropriate and that you can't stop doing)
12. All forms of abnormal sexual conducts (homosexuality, etc.), sexual conduct outside of marriage, prostitution
13. Uncontrollable sexual last
14. Cruelty
15. Hatred (Especially hate toward religious people and Jewish people)
16. Envy
17. Greed
18. Sloth / Slumber / Laziness
19. Sadness / Sorrow / Despair
19. 20. Committing suicide (murdering yourself)

9. THE SEVEN DEADLY SINS

https://www.christianity.com/wiki/sin/what-are-the-seven-deadly-sins.html#The

The concept of the "Seven Deadly Sins" has its origins in Christian theology and traditions. These sins are considered particularly severe and are associated with moral transgressions that can lead to damnation if not *repented.

**to repent (a sin) is to sincerely admit that you've done it, and feel true regret or remorse about doing it.*

The seven deadly sins are seen as particularly destructive to the soul and are called "deadly" because they can lead to spiritual death if not repented and forgiven by those who was harmed, and by God.

Note that it's impossible to know for sure if God forgave your sins. No one knows it in this world. But if you feel truly sorry for committing your sins, you have a chance to deserve God's forgiveness and avoid the punishment in forms of misfortunes, sufferings, or curses.

The List of the Seven Deadly Sins developed over time, but Pope Gregory I most famously formalized it in the 6th century.

1. Pride: Excessive belief in one's abilities or qualities. Pride is often considered the root of all other sins.
2. Wrath: Intense and uncontrolled anger or hatred.
3. Lust: Excessive desire for sexual gratification.
4. Greed: Excessive desire for material wealth or possessions.
5. Gluttony: Overindulgence or overconsumption of food or drink.
6. Sloth: Laziness, avoidance of work or duty.
7. Envy: Jealousy or resentment towards others' success or possessions.

10. WHAT IS THE WORST SIN?

The worst sins are those that someone commits while knowing that they are sins.

11. HOW SATAN & DEMONS MAKE YOU SIN, AND WHAT COMES NEXT

Satan & demons make you sin by deceiving you: they make sinful things & activities look attractive, desirable (popular, fun, pleasurable, or a must) or just normal. It's because they want you to "swallow the baits." They want you "on their hooks", so they could make you do what they want, torture you and totally control you.

They manipulate your thoughts (strange thoughts or voices in your head are signs that demons are already inside you).

That's how people get addicted to smoking, alcohol, drugs, pornography, occults, commit crimes, etc. Those things get to people through their "friends", music, videos, movies, websites, places, and objects that already serve Satan.

By sinning, you're not only wounding your soul, removing God's blessings out of it and out of your life, but you're also opening a door for demons to enter inside your body & mind (or giving energy to those that are already inside you), so they can manipulate you and make you do what they want, so you can serve Satan, and not God, suffer & die in the end, and go directly to hell to be tortured and suffer there for eternity.

What comes next?

Next come different kinds of misfortunes and sufferings in the forms of torture, torment (mental and/or physical), changing your life's priorities, ruining your health, relationships, and finances, destroying your morals – slowly and sadistically killing you. Demons enjoy doing all that and it's their job.

Remember that their goal is to stop you from knowing God, to destroy you physically, psychologically, and spiritually (make you useless) or make you kill yourself before you turn to God and will be saved by Him.

12. WHY PEOPLE GET MISFORTUNES & SUFFERINGS

So, you sin and because of this, you get misfortunes, sufferings, or even curses that can last up to your 4th generation (you, your children, your grandchildren, and your grand grandchildren).

So, **IT'S YOUR HUGE RESPONSIBILITY TO STOP IT.**

You get misfortunes, sufferings, or curses for

- following Satan / false gods (expect a curse for this),
- contact with occults or witchcraft in any form or even for trying it as “a joke”,
- committing sins;
- doing something that harms you.

13. WHO “SENDS” MISFORTUNES, SUFFERINGS, OR CURSES?

These are the sources of misfortunes, sufferings, or curses that you get after you sin:

1. God himself (for not following his word and the rules of living)
2. People representing God (pastors, popes, bishops, etc.)
3. Self-imposed curses (When you wish yourself something bad)
4. Self-imposed misfortunes and sufferings (When you do something bad or just stupid, and then you suffer consequences)

The next sources don't always "work", so don't worry much, but anyway...

5. People with relational authorities (your parents, grandparents, etc.)
6. People representing Satan (witches, fortune tellers, gurus, etc.)
7. People who pray to control you
8. People who utter curses
9. Agreements or relationships with people or groups / societies that are under the power of evil (Satan’s) forces (In this case, you come under that same power)

14. MISFORTUNES, SUFFERINGS AND CURSES

Misfortunes, sufferings and curses can go on for generations and can represent themselves as bad health (allergies and arthritis can be some of the signs), abuse of drugs, alcohol, smoking, and other addictions, committing crimes, being fruitless in many areas of life, depression, sadness, poverty, constant stress, mental illnesses, loneliness, discords in family (divorces, alienation of parents and children, etc.), being prone to accidents, causing problems and misfortune to other people, etc.

Main causes of misfortunes and sufferings

1. False gods / idols / occult
2. Disrespecting parents
3. Killing (including abortions)
4. Injustice to the weak or helpless
5. Unnatural sex or incest (homosexuality, etc.)
6. Antisemitism
7. Depending only on yourself rather than on help and the grace of God
8. Stealing / Perjury / Slander / Lying
9. Stinginess / greed toward God

Note: According to The Bible, at least 10% of your income must go for enforcing God's rules: helping week & poor people, benefitting the lives of others, etc.

THE LIST OF THE MISFORTUNES AND SUFFERINGS

Humiliation
Inability to reproduce in any area of your life
Repeated miscarriages and related female problems
Mental and physical sickness or chronic illness
Depression, Mental and emotional breakdown
The breakdown of marriage and family alienation
Continuing financial or material insufficiency, Poverty
Defeat
Oppression
Failure
Being prone to accident
Desperation
A history of suicides or unnatural death

15. WHAT TO DO WHEN YOU ARE DEPRESSED

According to the Christian Orthodox teachings, **you get depression for committing sins, as every sin is a wound that you inflicted on your soul.**

Stop sinning, repent, start living by God's rules & serving him, **praise God & express your gratitude to him (PRAISING GOD IS WEAKENING SATAN), admit that you deserve what you've been going through**, cut out depressed or negative people (depression is contagious), remove people & things that upset you (if it's not possible, then just start thanking & praising God every time you get upset), and wait till God heals you.

Don't mask depression (injuries to your soul) with some superficial "remedies." This won't work.

16. BLESSINGS OF GOD

Nature Landscape Stock photos by Vecteezy

These are the blessings of God that those, who live by God's rules, get.

GOD HAS MANY BLESSINBGS AND THESE ARE SOME OF THEM:

Exaltation (being lifted up emotionally)
Health
Fruitfulness in many areas of life
Prosperity
Victory
God's favor (help of God)

God's followers have a chance to have a very good life while they are alive and after they pass away, provided during their lives they repent their sins and live according to the God's Word.

17. HOW TO PASS FROM MISFORTUNES AND SUFFERINGS TO BLESSINGS

DO YOUR PART, AND GOD WILL DO HIS. FIGHT YOUR EVIL PASSIONS.

The main thing to understand here is that **you have to make the firm decision to turn away from the ways you used to be and start living by God's rules.** You're breaking up with the past sins, renouncing them, getting rid of demons that manipulate you, and completely turning to God. You're feeling deeply ashamed about your sins and old ways of life. You're asking God to forgive you, help you and save you.

Note: For some people, just acknowledging and analyzing the consequences of their actions is enough for making them stop doing those actions. For instance, if you keep smoking, you'll not only be wasting your time & money, you'll also be poisoning yourself, making yourself prone to lung cancer, liver disease, etc.

WHAT YOU HAVE TO DO TO REMOVE MISFORTUNES, SUFFERINGS OR CURSES

1. Recognize your problems and their causes.

2. Humble yourself (Realize that you're no better or even worse than other people. **Admit that you deserve what you have been going through. Don't judge others.**)

3. Turn to God and ask him for forgiveness for your sins and wrong ways of living.

4. Confess any known sins of yourself or your ancestors. You are not personally guilty for any sins they may have committed, but you are affected by their consequences. (Look up the full list of sins on the internet, write down all yours (you have to analyze all your life), think about each of them, **repent (you have to feel truly sorry for what you did)** and try to correct if possible. You can confess to a pastor in a church (it's the best way) or just say you sins out loud (**God is everywhere and he already knows about your sins. All he needs is your sincere repentance.**)

5. **Repent all your sins** and known to you the sins of your ancestors**. Unrepented sins can prevent removing your problems.** (Repenting means feeling sincere and strong regret about your wrongdoing or a sin. You must be honest to yourself about how you feel. **If you don't feel sincerely sorry, not much is going to change in your life. But if your conscience is bothering you, rejoice! Conscience is a voice of God.**)

6. Break with occult, curses, groups that are under the influence of evil forces and worship Satan / false gods or follow directions of fortune tellers', astrologers, etc.

7. Get rid of all objects connected to Satan / false gods in all areas of your life (their images, tattoos, music, pictures & videos, photos of people who worship them, etc.), rip / cut them off and throw away from your house.

8. Stop contacting people and attending places that might entice, encourage, or support you sinning again. (You can let them know that you decided to live by God's rules and send them this book.)

9. Be honest (Have strength to admit that what you did is bad and embarrassing. Don't justify yourself.)

10. Forgive all other people (you have to name them). (Decide to forgive them fully and sincerely. **If you don't forgive others, the process of releasing you from**

misfortunes, sufferings or curses won't work and they won't be removed. If you don't fully forgive others, God won't forgive you.)

We all are God's children, and we all have demons. Instead of judging, blaming and being angry at those who hurt you, feel sorry for them. They need help too. (Send them this book ☺)

11. Commit yourself to obedience to God's rules, because that is the condition for continuing in blessing.

12. Pray (in your own **sincere** words) and ask God to forgive you and remove misfortunes, sufferings, or curses. Do it as many times as needed until you are saved and healed. **Be very respectful and don't forget to thank God. You'll be talking to the creator of this world. Don't upset or anger him.**

13. Close by thanking God. You can say: "I thank You, God, that from now on, as I live in obedience to You, Your blessings will come upon me and I will except them me."

14. After you pray, renounce your sins, addictions, or curses, and exhale/ blow out. (Demons will be leaving you through your throat.)

15. Resist every attempt of Satan to keep you under his control.

16. **Praise God & express your gratitude to him. (PRAISING GOD IS WEAKENING SATAN.)**

DILIGENTLY DO YOUR PART, AND GOD WILL DO HIS. FIGHT YOUR EVIL PASSIONS.

So that's the prescription for blessings.

When you have done all this, you are legally entitled to full release from misfortunes, sufferings or curses over you or your family. **However, misfortunes, sufferings or curses cannot be removed if you haven't met the conditions listed above.**

18. WHAT YOU GET IF YOU STOP SINNING. WHAT IS THE GOD'S KINGDOM?

Remember that Satan can't give you any awards or blessings – he simply doesn't have them. All his "blessings" are only baits for getting you into his webs. Satan can only entice, allure, and entrap to make people serve him instead of God.

You have to know that sins are interconnected: removing one sin from your life, you will automatically be removing other sins, and your emotional state will be changing.

Along with removing sinful acts from your life, you'll feel how the invisible filters will start removing from your eyes, mind, heart, and soul. The filters that prevented you from seeing, understanding, and feeling different people and situations.

Also, you'll start finding the RIGHT DECISIONS for earlier unsolvable situations and problems.

You'll make improvements in different areas of your life (your health, emotional state, financial situation, relationships with dear-to-your-heart people).

You'll start noticing and understanding many things that you didn't pay attention to in the past because you just didn't see them.

Also know that it's almost impossible to become completely sin-free. Only very, very few people can do it.

To become sin-free, you have to eliminate all your passions and attachments of this world, and completely entrust your life to God.
And in this case, **the God's Kingdom** (true love & peace) that is already inside you (in your soul), but is covered with layers of passions and attachments, will be liberated.

But now, it's covered with thick layers of passions and attachments.

So, get to work!

19. ABOUT LOVE. THE MAIN RULE OF GOD.

God or the Highest Intelligence is the main source of love. Sometimes, it's said that God is love. And it is so: Everything that God does, He does because He loves us and this world. And He also wants us to love Him. Because if we love Him, we'll live by His rules and will benefit this world.

Gol loves us so much, that He sent us His beloved son and the first teacher of the God's Word Jesus Christ to bring us His rules, although He knew that Jesus will be killed. **All the God's laws can be fulfilled in one word LOVE**
https://www.youtube.com/watch?v=A4mGQeRQvMg&list=WL&index=13

When Jesus was teaching in Israel, one lawman asked him, **"What is the main rule of God?"**
And Jesus replied, **"Love God with all your heart, with all your soul and with all your mind. This is the first and the main rule."**

Don't forget it. God is the source of everything.

The second rule that Jesus taught people was
"Love your neighbor as your love yourself."

God wants us to understand and remember that all of us are His children that He created. We all have different flaws: no one is perfect. So, He wants us to be kind to each other and help each other.
We can judge a flaw or an action, but not a person.

God doesn't need our religious ceremonies (a church is a school and the means of achieving love for God and other people). God wants us to love Him and each other.

Because if there's no love for God and other people in a person's heart, all other virtues of this person won't matter to God.

If you hate even one person, you are blocking the God's Spirit (or the Holy Spirit) from entering your soul and heart, and you won't progress in achieving love for God and other people.

In our lives, there are different kinds of love.

In old-Greek language, there are a few types of love, and each one has its own name: love for a motherland, love for children, love for parents, love for friends, love for one's partner, love for animals, and so on.
Love for people, for all living things, and for this world can only be achieved if a person got rid of all passions and attachments.
This is the highest reward of God. By having this feeling, you get connected to God and live in harmony with this world.

Without love, there're no real fairness and responsibility.

Sometimes a person doesn't know what love is, he just never experienced that feeling. He can confuse love with passion or attachment (a habit).

This happens when parents don't love their child, and a child doesn't know a feeling of love, its emotional and physical expressions.

As this child grows, some sort of invisible wall is hardening in his heart, the wall between him and the world around him.
All warm emotions that come from other people and animals can't get through this wall. This person is not interested in people and animals, he just doesn't need them, and sometimes can't understand what they feel.

The person with the wall in heart remains completely indifferent towards them: he lives in his own walled-off world, where there is only him, his needs, and his responsibilities.

He simply can't receive emotions of love from others (they don't get through his "wall"), and he can't express them because he just doesn't know what love is.

But if this person understands his problem and starts to want to discover the feeling of love, then the wall in his heart can be broken.

It's not easy because this person doesn't know what he has to find. He only knows that it's called "love", and he saw its emotional and physical expressions.

This wonderful video Derek Prince helped me understand the reason why some people don't know the feeling of love: Rejection - Cause and Cure 2 of 5 - Results of Rejection - YouTube

HUGE THANK YOU to him for his devotion in serving God and people!

20. IF GOD LOVES US, WHY DO INNOCENT PEOPLE AND CHILDREN SUFFER AND EVEN DIE?

No one knows God's plans for winning the war with Satan. All we know is that everything He does, He does to help us and this world get better by bringing us closer to Himself and changing our characters & ways of life.

We are all connected, especially nowadays. Someone's suffering or death can affect other people by bringing about some positive change in the world, make people stronger, bring about some new information or awareness, help other people.

These are some reasons of sufferings and death of innocent people and children:

1. As the war with Satan continues, some places on this planet can get under Satan's influence, and lots of innocent people could suffer and die there. The best thing people could do in this situation is to leave those places and stay away from them.

2. It's said that God takes some people's lives at the best moment of their spiritual development. He sees where this person is going and stops him from joining Satan or harming himself or others.

3. God takes children to His Kingdom because He know what is best for them. He doesn't want to see them suffer in their future lives.

4. The sufferings and death of innocent people could also be a result of the evil and wrong course of lives of a group of people, society, or a country, where those people belong to. It can be a signal from God about the needed change in mentality and ways of life.

5. And sometimes, the sufferings and death are the results of someone's way of life or actions. God has nothing to do with it. It's a person's choice.

God permits no accidents.

21. WHO IS YOUR GOD?

Ask yourself: "Who or what is the most important thing in my life?"
Your answer will be your god.

If it's money, children, your house, your pets, your work or a hobby, or it's you yourself, then don't get mad at God for sending you misfortunes and sufferings **to get you on the right path towards HIM.**

In His very first rule, He said: "You shall not have any other gods except Me."
And you can't even follow the very first rule...

Before making any decision, ask yourself: "What will be right for God?"

Don't forget that you can't hide anything from God because He knows our thoughts, feelings, and actions.

22. THE MAIN GOAL OF CHRISTIANITY

The main goal of Christianity and some other religion is healing of people's souls by cleansing them from passions: helping people heal (get rid of passions) their souls + making so, that they help others in that.

Basically, the main goal of Christianity is to help people change in their hearts, minds and souls.

The first person, who brought us the Word of God, his beloved son Jesus Christ, died on the cross, so that we could change, get closer to God, help him save this wonderful world, and live for eternity in God's Kingdom after we die. Just like his beloved son Jesus Christ, whose life God sacrifice for that.

You have to understand that you can only heal your soul by getting to know yourself and getting rid of passions that many sins are stemming from.
By getting to know yourself, you'll get humility (understanding that **you're not better than other people and that other people are under the influence of passions as well: you have one thing, and they have something else**); you'll stop judging others (**it's OK to judge a vise, but not a person**); you'll understand how hard it is to fight your passions and not to sin (**sinning in thoughts is still sinning**).

Then, according to the growth of your humility, you'll get a feeling of calmness, peace, sympathy and love for other people (even for enemies) and all live creatures, and you'll be on your way to healing your soul and helping others in this.

23. WORDS OF ENCOURAGEMENT

Don't be afraid of Satan and demons. You, with God on your side, are stronger.

And remember that you have to make an effort and strive as long as needed.

"THE KINGDOM OF GOD CAN BE RECEIVED ONLY THROUGH EFFORTS."

Just asking for God's forgiveness and praying are not enough. You've committed many sins and have been sinning for so long, and now you want all the consequences of your sins to be removed in a minute? That doesn't work this way.

Removing your sins is a process, and the length of this process is up to God and yourself. It might take a few days, or it might last longer than you expect, could be

many years, or even all your life.

Just pick up your "cross" (whatever you've deserved or what God has given you) and humbly carry it. Remember that you're doing it not only for yourself (to improve your life) and for your soul (so it won't suffer for eternity after your body dies), but you're also doing it for your family, your offsprings, and for your ancestors, who passed away. **YES, by improving yourself and doing good deeds, you can help better their lives in this world or in another realm. Also, by improving yourself, you're improving this world too and fighting Satan.**

Get strong! Become a God's soldier!

What you can do now is to show God your devotion by living by His rules (externally and MOST IMPORTANTLY – INTERNALLY).

This alone is not easy. You have to learn how to exercise self-control not only in your actions, but also in your thoughts, emotions and feelings. You have to learn analyzing them, figuring out where they come from (demons again?), understand their consequences, and act by God's rules.

REMEMBER THAT YOUR GOAL IS TO CHANGE INTERNALLY. Only acting by God's rules, but being a sinner inside yourself, absolutely won't be enough. You'll have to change internally.

You'll also have to fear God's punishment for sinning and develop & feel disgust toward Satan & sins.

Also, **START PLEASING GOD BY SERVING HIM.**

This means being an example as someone who lives by God's rules, let other people know about them (you can pass this book to them), help people by letting them know the way of their salvation by God and coming to God's blessings.

What good did you do today?

Be patient. Sometimes you may feel no change at all. But sometimes the results are quite dramatic. Don't be scared by evil manifestation (Satan doesn't want you to leave his web of sins or do something good for God). But **you're stronger than Satan, with God on your side.**

You need to bear in mind that after you have been delivered from misfortunes, sufferings, or curses, you still must go on meeting the conditions of your salvation, which are living by God's rules and serving him.

24. WHY REMOVING MISFORTUNES, SUFFERINGS OR CURSES MIGHT NOT WORK

There could be many reasons. It can be because you didn't humble yourself enough (you didn't realize your powerlessness when you're without God, and how sinful you are), you didn't feel truly sorry for your sins, you think you don't deserve what you've been going through, you were not desperate, you just wanted to get rid of your problems instead of turning to God and starting serving Him, you didn't break with occult or with people, who serve Satan, you have occult objects, you're under the curse, you are not baptized, you didn't forgive someone, or there's an unrepented sin.

25. HOW TO PROTECT YOURSELF FROM SATAN. THE BEST WEAPONS AGAINST SINNING.

You have to understand and remember that Satan and demons don't want you to leave them, and they'll grab any opportunity to make you return to them. So, be aware of different traps in forms of deceptions (like seemingly attractive or interesting people or things that you "need" to know or to have, actions you "need" to do, or places you "need" to visit.)

Satan and demons are extremely experienced deceivers. They've been around humans for millions of years and they've learned everything about us.

And they know our thoughts too.

They know how to entice, allure you into something that goes against God's rules and that will harm you and this world.

They are always watching you, and they can quickly decide when and where to set up a trap for you. Remember: They want you on their side.

So, what can you do to save yourself from them?

These are the best weapons against sinning:

1. Knowing the God's rules and living by them.

2. Analyzing your thoughts, emotions, feelings, actions, **and their consequences.** What are their causes? Do they come from God or from Satan? Do they go against God's rules? **What does my conscience tell me?**

Analyzing them, waiting, exercising self-control and remembering & reviewing God's rules might be the best you can do to prevent sinning.

3. Waiting (Postponing your actions) helps a lot.

4. Avoiding people, objects, activities, and places that you have doubts about helps a lot as well.

5. **Praising God & expressing your gratitude to him (PRAISING GOD IS WEAKENING SATAN AND DEMONS).**

Thinking your actions through, looking at things from different angles, and listening to your conscience will help you make the right decision & avoid "traps" (mistakes, shortcoming) that Satan and his servants - demons set around you.

And even if you make a wrong decision, God will correct you – don't worry!

You also have to know that every thought and action (even the smallest and seemingly unimportant) matters.

➔ **If you can't be right in small things, you can't be right in big ones either.**

Also, be aware that there are many areas on this planet that are under control of Satan (evil forces). Stay away from those places.

Be aware of your surroundings.

Never forget about the never-ending war between God and Satan, or between good and evil forces. Which side are you on?

BLESSING OR MISFORTUNE – YOU CAN CHOOSE.
DO YOUR PART, AND GOD WILL DO HIS.
